

STOP THE VOTE !!!

Commissioners:

COMMUNICATION is a two-way process.

By eviscerating the rules on media ownership you would be restricting COMMUNICATION in the future and cheating my children and all Americans out of the precious public resource that are our broadcast frequencies.

By rushing this vote without adequate public notice and consideration, you are also thwarting COMMUNICATION today on this issue.

The public will not be well-served by further concentration of media ownership into the hands of a few synthesized voices with neither faces nor ears, nor any commitment to any community.

It is shocking and outrageous that any member of the FCC should think of the citizenry of this nation as mere "consumers" of lowest-common-denominator pop culture, to be spoon-fed from afar by corporate giants.

You simply CANNOT hand the reins of these airwaves to the free market! You are responsible to The Public, not "The Media"!

It is about COMMUNICATION, not delivery. It's an exchange of ideas, not a purchase of entertainment!

Find your conscience. Maybe it's in your wallet.

VOTE TO DELAY or VOTE NO!

Angrily,

Tom Rutenbeck
